VECTOR FUTURE OF ENERGY

As many of you may know we have been nominated to win the use of a Vector solar system featuring a Tesla Powerwall battery for 10 years.

We know the potential for using solar energy to create a 'greener' school while at the same time, saving money for much needed resources for our teaching and learning programmes. Could you please follow the link below to place a vote for Fairburn School to win the solar panels - it's free to vote and only takes about 20 seconds.

If we can get Fairburn into the top 30 schools on the leader board by Midnight 30th August we will win a set of panels and power generation for 10 years – a huge saving in annual running costs for our school.
